

COMPANY PROFILE

Enviro Care

envirocarehazmat.comABOUT

Enviro Care, Inc's foundation is based on the principles that an imminent threat to public safety and the environment shall be properly remediated for the protection of present and future generations. This includes protecting the responsible party from erroneous cost and long-term environmental liabilities. We have a commitment to a Green environment by restoring our lands to a nature state and recycling solid waste. Recycling of paper, plastics, oils, antifreeze and other solids once considered a waste lessens our reliability on nature resources. We remain on the front lines of technological advancements, and by listening to customer's needs and expectations, our line of services remains elite in the environmental industry.
