Partitions--Folding & Operable Walls Tenant Construction Building Alterations Temporary Walls Temporary Demising Walls Metal Stud Services Drywall Debris Folding & Operable Walls Tenant Construction Building Alterations Temporary Walls Temporary Demising Walls Metal Stud Services Drywall Debris Folding & Operable Walls | Envy came about from a culmination of many years of construction and business experience. Founder/CEO and inventor Doug Spear saw the need for a modular wall system that could transcend the boundaries of many industries, yet provide the strength and durability to handle the industrial construction use. His construction experience coupled with the vast business knowledge of the Envy management team led to the current, patented Envy Modular Wall System that is being used in many industries. These industries include: Industrial Construction, Retail Tenant Improvements, Airports, Museums, Conventions, Expos, and more.
