ABOUT

Epic Plastics is a leading provider of professional grade edging solutions, offering high-quality and environmentally friendly landscape products made from post-consumer recycled plastics. Their premium edging solutions are ideal for both professional landscapers and DIY enthusiasts, known for their minimal expansion and contraction properties, perfect for straight and gradual curves. With over 11 miles of Benda Board produced daily, Epic Plastics continues to set the standard for landscape edging products, diverting over 15 million pounds of post-consumer plastic from landfills each year.
