A B O U T

Medium-Small (50 - 199 Employees) Transfer Station Municipal Solid Waste (MSW) Landfill Metals Recycling Facility Tires Recycling Facility Save Money! We have the cheapest dumpster rates in NJ because of our recycling process. Feed the grid, not the landfills. The construction and demolition debris in your dumpster is converted into an alternative fuel as a cleaner alternative to coal. Get "LEED" credits for recycling your dumpster material. Help make NJ a better place to live one recycling job at a time. We Deliver - If you need a dumpster in NJ, call us or fill out our contact form here and we'll have your dumpster delivered within 24 hours with 2 hour window. You Fill The Dumpster - Throw all your construction or demolition debris into one container. We'll sort through the commodities at our facility in NJ. We Pick Up - When your container is full or your project is done, let us know and we'll pick it up asap and haul it back to our facility in NJ to start the recycling process. Material Recovery Facility - The container is tipped at our Material Recovery Facility (MRF) and the debris is pre-sorted for the next step. Sorting Process - We'll load the recyclable material from your dumpster into our state of the art sorting machines. Our facility is the newest and most advanced MRF in NJ. Pre-Shredder - This shredder sizes the material into more manageable pieces for the sorting process. Evergreen isn't your typical dumpster hauling company. We bring the material back to our Material Recovery Facility and manufacture an alternative fuel. This wood-based fuel is then used by energy companies throughout the tri-state area as a greener alternative to coal. Our facility is conveniently located near Newark Liberty International Airport. Need a dumpster? No problem. Our dumpsters are available for delivery in North & Central NJ, and are available in 10, 20 and 30 yard sizes. With the best on-time delivery rate in NJ, your dumpster will be ready when and where you need it. Evergreen offers the cheapest dumpster rates by recycling OVER 90% of the contents (construction & demolition debris).
