

COMPANY PROFILE

FoodScraps360

foodscraps360.comABOUT

FoodScraps360 is a residential food scrap collection service that makes composting easy and fun. They provide facility approved BPI certified compostable bags that can be easily ordered in the customer portal and delivered on the next pick up day. Customers can put their food waste, such as banana peels, coffee grounds, egg shells, apple cores, plate scraps, and old fruit and veggies, into the kitchen bin lined with the compostable bag. The bag can then be tied up and thrown into the compost bin, making composting as easy as throwing away trash.
