

COMPANY PROFILE

Forest Grease Service

forestgrease.com

ABOUT

Forest Grease Service is a leading provider of grease management solutions in Des Moines. They specialize in commercial and industrial wastewater treatment, helping food service establishments comply with the Fats, Oils, and Grease (FOG) Ordinance. Their services aim to reduce grease-related sewer blockages, backups, and sanitary sewer overflows, which can cause significant damage and health hazards. Forest Grease Service is committed to providing efficient and effective solutions to ensure the smooth operation of businesses and the protection of the environment.
