## A B O U T

Four Corners Recycling is the headquarters and plant location for three recycling companies: Four Corners Recycling, Full Circle Recycling, and Full Circle Biofuels. Full Circle Recycling started in the Big Sky area in 1994, when Dave Leverett decided he could combine his skiing habit with his desire to save money while helping the environment. Little did he know that demand for his services would leave little time for him to ski the steep and deep but filled a deeply needed niche. In the past 18 years, Dave's company has grown from a one-man, one-pickup truck business into a regional powerhouse servicing Big Sky, Belgrade, Manhattan, Bozeman, Livingston, and Yellowstone National Park. In 2006, Dave combined forces with Keith Hokanson, a local businessman, to form Four Corners Recycling and recently Dave started Full Circle Biofuels, a company producing biofuels from locally used cooking oil. Both companies are based in the Bozeman area. Four Corners Recycling supplies recycling services for Gallatin and Park counties, the City of Bozeman, the City of Livingston, Yellowstone National Park, Montana State University and numerous local businesses. We buy brass, copper, mixed metals and old appliances. Call 406-220-6701 for details. Bring your items to our plant at 357 Recycle Way, just north of Four Corners off Hulbert Rd. Who uses our services and what do we offer? We offer pick up services to businesses and local governments plus drop off service to anyone who comes out to our plant at Four Corners. At this time, we do not do curbside recycling, since there are many other great companies currently offering those services to residential customers. We pay for the commodities we pick up or that are brought to our facilities. Commercial businesses: We can take your office paper, cardboard, plastic, and metal recyclables. Whether for a one-time pick up or on a regular schedule, we place bins at your business location and empty them on a scheduled basis. We have several size bins, including 90 gallon totes, cardboard containers ranging in size from 2 to 8 yards, and bins ranging from 2 yards all the way up to 40 yards for metal, plastic, and paper. Call us at 406.220.6701 to see how

we can help you. Individual customers: We take paper, plastic, and metals in any quantity and pay you by the pound. Just bring your items to our plant at 357 Recycle Way, just north of Four Corners off Hulbert Rd. Hours: Monday – Friday 8:00 am-5:00 pm, Saturday 8:00 am - 2:00 pm Drop-off Sites are available 24 hours a day, 7 days a week at most of the current sites. We are working on adding sites, so check back to see if a new site is available in your footprint. These are provided by Gallatin County but we service the sites. Plastic Recyclables: Should be emptied and flattened with caps on. No plastic bags or styrofoam. Paper Recyclables: Newspaper, magazine, phone books, junk mail, office paper and paperback books are accepted. Staples are ok. No neon paper or fibers that do not tear. Cardboard Recyclables: All boxes should be broken down to conserve space in the bins prior to pickup. Brown bags are accepted in cardboard. No food contaminated such as pizza boxes or wax coated materials such as 1/2 gallon milk cartons are accepted in these bins. Aluminum and Steel: All aluminum and steel cans are accepted. Please crush. Glass: Due to current market conditions and shipping & handling costs, we are currently not accepting glass.
