ABOUT

Cars and trucks can break down for many reasons, most often because of an accident that renders the vehicle a total loss. But that doesn't mean that every component in the vehicle is now useless. Used car parts often have plenty of life left in them, and at Fresno Auto & Truck Recycling, we have a vast inventory of new and used engines and other auto parts. When you purchase auto parts from Fresno Auto & Truck Recycling, you can rest assured that you have made a good purchase. We offer 6 month warranties on the majority of our parts, and extended warranties are also available for select parts.
