ABOUT

Green Building Supplies | Green Product Distributors, Concord, NH Energy saving, green building products. Thermal Insulation, insulated concrete forms, low maintenance aluminum decking. | Green Product Distributors, Concord, NH. Our company was born out of many years of building experience by our sister company, Brix and Stix Construction Corporation, which began using insulated concrete forms (ICF) as a way to save its customers money on their energy bills while also providing a green product. Business grew to the extent that the company was asked to be a stocking distributor and to sell to other companies. Within a short time other companies that distribute green products began asking the company owner, Dick Benson, to distribute their products as well. Green Product Distributors currently distributes many product lines including several brands of insulated concrete forms, fabric form work from Fab Form Industries, LTD., two radiant barrier insulation systems, Heatlink products, Wahoo Deck products, Separett Waterless Urine Diverting Toilets and QRamp Modular Access Ramp Systems. Green Product Distributors was established in 2003 as a full line distributor of sustainable and environmentally friendly building products. Home Decks Insulated Concrete Forms Insulation Gallery About More... Welcome to Green Product Distributors, your local source for energy saving GREEN building supplies. Since 2003, we have been a distributor of sustainable and environmentally friendly building products to homeowners and contractors. All our product lines meet stringent requirements for sustainability, with many qualifying for points under the LEED (Leadership in Energy and Environmental Design) program. We offer products designed
