## ABOUT

GreenCo Recycling LLC. has been in the recycling business since 1959, we provide prompt and courteous service to all of our customers. BalerGuy is part of GreenCo Recycling LLC. and has been in Lake County Florida since 1959, we are a second generation recycling business. We have many different brands of Balers. They were selected for their quality, and we stand behind you with a service department that is terrific. At GreenCo Recycling LLC., you'll find caring professionals that listen to the customers needs. Cutting disposal costs is achieved in most cases by going to baling their trash. Even over using compactors or open top roll-offs. If you are using either, your employees are doing 90 percent of the labor of baling but you are not getting any of the benefit.. If they put the scrap into a baler, it will do two things. No capitalization for equipment. Baling seems to be the best choice. By placing the baler near the point of generation, it also stops toting time to the dumpster and any chance inventory shrinkage.
