---

**A B O U T**

We start by buying and towing junk cars, trucks, SUVs and vans from the Gainesville/Hawthorne area (yes, we will buy your junk car!). As we constantly work on adding to and diversifying our inventory, we sell the used parts from the cars in our yard - you call us wanting a good deal and, if we have it, it's a match made in heaven. We remove the part for you and you get it for a fair price. Give us a call to see if we have what you need. Once the cars in our yard are stripped of their value, we stack them, then crush them. This is always an exciting season - we hire a crushing crew to to remove the cars from their stacks and crumble them into pancakes on site with their big machine. If you're lucky, you will spot some of these stacks out back or, if you're really special, the crushing crew. The scrap metal is then packed onto a semi truck and hauled off to be recycled. The scrap metal coming from our yard will be used to make, among other things, new cars. And so the cycle comes full circle.
