

## COMPANY PROFILE

# HVAC Recycle

[hvacrecycle.com](http://hvacrecycle.com)

## ABOUT

HVAC Recycle is a profitable and environmentally responsible air conditioning recycling company that offers free removal and pays for all types of unwanted air conditioning units. They work with both commercial and residential clients to keep inoperable units out of landfills, following strict EPA guidelines and maintaining a zero landfill policy. HVAC Recycle purchases end-of-life HVAC systems and recycles 100% of all products, including chillers, heat exchangers, boilers, and air cooled units across the United States.
