**ABOUT**

Hyper Green Environmental LLC focuses on Industrial, Commercial and Residential Hygiene, odor contamination removal. Our patent pending formulas have been scientifically proven to eliminate bacteria causing odor problems, protecting your company, the health and safety of people in the workplace, and our communities. We have structured and implemented odor application and elimination expertise that extends to the areas of Medical, Sanitation, Hospitality, Maritime, Transportation, Commercial, Residential, Marine, and Aviation. Because of this, we can provide our clients with a turnkey solution for environmental hands on, cost effective products which support & service these industries. Infinity is the first multi purpose protectant product line that eliminates odor. Infinity eliminates contaminating odors on contact and inhibits the odor from returning to your surfaces by creating a protective barrier. Infinity has also been proven to prevent rust and deters pests and rodents without mortality. Infinity products are water based, non toxic, hypoallergenic with a pH balance of 7.0. It does not release off gas (VOCs) and does not contain Chlorofluorocarbons (CFCs), or ozone depleting chemicals (ODCs). It's non flammable, non hazardous, and will not re enter the environment. Best part of all, It's biodegradable and safe for adults, children, and pets!
