

**COMPANY PROFILE****IFC**[indfumco.com](http://indfumco.com)**ABOUT**

IFC Industrial Fumigant Company (IFC) specializes in industrial and food industry pest management, including facility fumigation and sanitation. IFC is a national company that provides pest management and sanitation solutions exclusively to the food and commodity industries. Communication, prevention, and safety are key elements for success in the Integrated Pest Management (IPM) strategy at IFC. Our fumigation teams are certified and comprehensively trained in safety and current techniques for fumigating all types of containers, ships, barges, and structures containing food and non-food products. Our professionals assist in meeting the food industry's strict sanitation needs with three powerful and affordable decontamination solutions.
