# iFoams recycling

[ifoamsinc.com](http://ifoamsinc.com)**A B O U T**

Ifoams Recycling does its part in collecting and sorting through millions of pounds of used residential and commercial carpet as well as thousands of mattresses in Colorado every year. Recycle Now and help Colorado go Green! iFoams recycling has one mission and that is to prevent and reduce the amount of recyclable carpet, carpet padding, mattresses and boxsprings ending up in our local landfills. Between both carpet and mattresses we prevent millions of pounds from entering the waste stream. iFoams recycling receives mattresses/boxsprings and offers a pickup service for the used, post consumer material. We break apart every mattress and boxspring we receive and responsibly recycle the components that make up each individual piece. With the Ifoams recycling process, we are able to recycle up to 90% of every piece. Mattresses are a landfills nightmare since they take decades to decompose. Using our service will guarantee that your mattress and boxspring will stay out of the landfill. ifoams recycling collects, sorts through, and bales millions of pounds of carpet and padding every year.
