## ABOUT

INC Environmental Recycling incorporated in 2013, founded on a respect for the environment and the objective to pool the expertise, talent and commitment of three like-minded organizations to turn waste into resource. Our goal is to preserve the environment by diverting clean, recyclable materials from landfills. To achieve this goal, our solution is receiving, sorting and resourcing valuable recyclable material to assist companies in achieving their zero waste initiatives. Our mission is to provide a fast, efficient, and environmentally sound option for haulers and businesses at an economically pleasing price. INC stands for "In the Name of Christ." We strive to glorify our Creator and Savior by taking care of the gifts over which we have dominion. As stewards of the earth and environment, we are called to sustain them. We believe, through the efforts of INC Environmental Recycling, we can work to protect and preserve what has been given to us through God's grace. INC Environmental Recycling offers hauling and drop-off services and a 7,200 square foot facility for sorting materials. The sorted materials we recover are then sent to processing facilities that use the material to produce and market a diverse range of products. Some import facts are:
