

COMPANY PROFILE

Ken Greco CO Inc

kengreco.com

A B O U T

Ken Greco Co., Inc. believes that no steel should go to waste. With two scrap processing yards, they are able to process all scrap steel which is sent back to mills for re-melting. This provides an eco-friendly and cost efficient way to recycle steel. Ken Greco Co., Inc. takes an active role in helping their community recycle steel. For most local demolition jobs, they will provide a roll-off container for the scrap steel free of charge. Ken Greco Co., Inc. provides environmental and economic solutions for the steel industry. Please call for scrap steel pick-ups. Since 1999, Ken Greco Co. has been providing innovative, low cost alternatives for the steel industry. From our extensive in-stock inventory to our unique access to multiple major steel mills located in our area, we can provide you with prime, excess prime and secondary steel at the lowest possible price. With 6 different locations, each specializing in different types of steel commodities, Ken Greco Co. can provide unique, cost effective steel sourcing solutions for all of your steel requirements. We buy directly from the mill, so there is no interruption in the supply line, and with our processing capabilities and self owned and managed trucking, we can ensure timely delivery of your order on time, every time. We also offer bulk and volume discounts and on site rail car service. We are a company that is constantly expanding our locations and capabilities to better serve our customers. If there is a special need not listed on the site, we would like an opportunity to source and address those needs. Ken Greco Co., Inc. has a diverse inventory of alloy material including Nickel, Aluminum, Copper, Chrome, and Molybdenum. Their unique inventory allows them to both purchase and sell this material. Please call for alloy availability. With a full fleet of trucks, Ken Greco Co., Inc. is able to eliminate the high costs of freight and pass the savings onto the customer. Whether picking up or delivering, they are able to freight material promptly and efficiently. They also provide a roll-off container service on most scrap steel jobs. A full line of roll-off containers is also available to rent for non-steel jobs as well. Please call for container availability.
