**A B O U T**

Klein Plating Works, Inc. has provided quality industrial metal finishing since 1915. Today, we have grown into a large successful plating operation that occupies a 32,000 square foot facility headquartered in Erie, Pennsylvania. The company was founded on offering quality plating in a timely, cost effective manner. This still holds true today, and while our experience allows us to be leaders in our industry, we continually strive to improve our processes and grow our business in order to better serve our customers' needs. We have come to understand the value of customer relationships and endeavor to be a beneficial member of their supply chain. Our 32,000 square foot modern plating facility incorporates all the latest technology needed to help your company be successful in today's competitive marketplace. Our advanced computer controlled plating lines are designed to deliver fast, efficient, high quality plating by means of: · Barrel Plating · Barrel Automatics · Rack Plating · Rack Automatics · Reel-to-Reel/Continuous Strip Plating · Selective or Controlled Depth Plating · Vibratory Plating Our long standing employees are the heart of our business. Flexibility: KPW can process almost any type of material and we can handle a broad range of shapes and sizes. We have the necessary resources to service: · Large Production Runs · Prototypes & Samples · Small Lots · Small, Delicate Parts · Large Molds and Castings · A Broad Range of Substrates Klein Plating's primary customer base is the northeast portion of the United States. However, we are not limited to any one geographical area. We service customers throughout the continental United States, Canada, Mexico, Europe and Asia. We are more than willing to negotiate shipping and lead-times anywhere in the world.
