

COMPANY PROFILE

Macon County Environmental Management

maconggreen.comABOUT

Macon County Environmental Management is a company based in Macon County, Illinois that specializes in recycling and safe disposal services. They offer a wide range of services including the recycling and safe disposal of appliances, paint, chemicals, building materials, medical waste, landscape waste, automotive waste, fluorescent bulbs, electronics, and single stream recycling. They also provide a convenient drop-off location for the recycling of unwanted Christmas lights. Their goal is to promote environmental initiatives and provide resources for the community to properly dispose of waste in an eco-friendly manner.
