

COMPANY PROFILE

Markur S.C.

markur.com.pl

A B O U T

MARKUR company from Wrocław has been dealing with construction and industrial waste management for over 15 years. We specialize in waste disposal and purchase and sell steel scrap, non-ferrous metals and recyclable materials, waste paper and foil. We operate actively in the Dolnośląskie Voivodeship, enjoying the trust of an increasing number of customers. Rigorous environmental protection requirements imposed by the European Union and resulting from the growing awareness of the threats posed by modern civilization cover most areas of human activity. One of the most important is proper management of municipal, industrial and construction waste. The increase in industrialization, the ever-growing consumption of goods and the dynamic growth of construction investments make the problem of waste management a priority in the fight to save the natural environment. So far, one of the most effective solutions is recycling and disposal.
