ABOUT

Renting Garbage Bins For Renovations After I started working on my home renovation, I realized that there were a few things we needed help with, including garbage removal. I was having trouble hauling garbage to the dump every day, but I knew that I needed to get rid of the debris as I went. It was a lot of work, but after finding a company that rented garbage bins, trash removal was a breeze. They brought out a bin, installed it in a convenient place, and told us how to call for a pickup. It was great to be able to toss our construction debris into a convenient place. Check out this blog for great information on renting out garbage bins.
