## ABOUT

Midwest Water Operations, LLC is a full-service water and wastewater operational firm that provides services to municipalities and private utilities in 12 states across the greater Southeastern United States. With a team of certified operators, engineers, and professionals, we offer worry-free service, utilizing state-of-the-art technology and precise planning to ensure efficient operations and maintenance. Our merger with ClearWater Solutions has further enhanced our capabilities, creating a 400-employee company dedicated to extending the life of infrastructure and delivering exceptional utility systems.
