

COMPANY PROFILE

New Style Recycling

newstylerecycling.com**ABOUT**

New Style Recycling is a multi-generational family owned business since 1990. We are a non-putrescible solid waste transfer station that is licensed by the New York State Department of Environmental Conservation and the New York City Department of Sanitation. At New Style Recycling we dedicate ourselves to reducing, reusing, and recycling the construction and demolition debris that is disposed of at our facility. We are conveniently located in the industrial area of Maspeth, Queens, on Grand Avenue, one of the main avenues connecting Queens and Brooklyn's industrial areas. We are only 1.5 miles south of exit 19 Grand Avenue off the Long Island Expressway. Contractors, builders, demolition experts, excavators, renovators and other pros throughout the New York construction and demolition marketplace rely on New Style Recycling for responsive and environmentally friendly waste disposal and recycling. This facility sees hundreds of tons of construction waste per day. We are open to customers large and small and there is plenty of room for dumping construction waste which eliminates wait time. New Style Recycling can provide certification and documentation for LEED credits. Here at New Style Recycling we strive to REDUCE, REUSE, and RECYCLE New York City's waste.
