

COMPANY PROFILE

Northside Scrap Metals, Inc

northsidescrapmetals.com

A B O U T

We are a family owned business that has been serving the Greater Pittsburgh Area for over 50 years. We have served thousands of customers and kept millions of pounds of material out of landfills. Over the years we have perfected our system to ensure the recycling process is smooth and convenient for every customer. Our customers can always depend on accurate weights, honestly, competitive pricing, and fast payouts when they are doing business with us. We do not accept payment from our customer; we pay them with cash or check in-hand! Northside Scrap Metals, Inc. is a family owned and locally operated business that has been operating on the north side of Pittsburgh since the turn of the 20th century. Paul Warhola started buying non-ferrous (non-magnetic) metals from tube city in the 1950's and would sort and clean the materials at a yard by his house in Jefferson Borough. The business continued to grow and Paul started his own scrap yard in Elizabeth in the early 1960's. Paul bought, The Mandel Company, in 1979 from Frank Mandel and enlisted the help of his sons George and Marty to help run the family business. Paul operated the scrap yards with his sons, George and Marty, until his retirement in 1986. Marty Warhola bought the Northside location in the early 1990's, condensed operations and currently oversees daily operations. Marty still treasures his dad's (Paul Warhola) advice on all issues. Martin Warhola has a business degree from Penn State University and has three children ages 21, 18 and 16. They work with their dad just as their father had done with his father. Throughout the years, Northside Scrap Metals Inc. has been committed to offering our customers fair selling rates in exchange for their scrap metals. Our goal is to continue in the tradition that has made us the successful business we are today. We honor our customers with fair exchange rates and are willing to answer any questions or concerns regarding our processes or metal types accepted. We use electronics, state certified scales, inside and outside truck scales and offer roll-off container service for scrap pick-up. We recycle ferrous and non-ferrous scrap metals. Please see our list of metals and call for pricing or

pick up service. We have large dump trucks and roll-off containers to serve your needs. In accordance with state law we require identification from individuals bringing in scrap. Pick-up and container service is available. Our trucks and drivers provide safe reliable service to your company or jobsite and we carry proper insurance. To schedule an appointment please contact us our office by dialing (412) 321-2058. We will gladly schedule a time and date for the pickup. NORTH SIDE SCRAP WILL NOT BUY STOLEN MATERIAL UNDER ANY CIRCUMSTANCE. Management reserves the right to change prices due to market conditions. Equipment Northside Scrap Metals Inc offers special equipment that tests all grades and types of metals. Like many of our customers, you may have scraps and old appliances of no use to you just sitting around collecting dust. Contact us today and turn those scraps for the trash into cash! Equipment:
