

COMPANY PROFILE

Ohio Compost & Recycling

ohiocompost.comABOUT

Effective January 1, 2011 the Lucas County Solid Waste Management District (LCSWMD) no longer offers free yard waste disposal to the residents of Lucas County due to increasing budget constraints. After this date residents will incur a nominal fee for yard waste disposal at local green waste facilities. In a response to this decision by the LCSWMD and with no yard waste recycling facility located in the southern part of Lucas County we decided to open a new composting and recycling facility to help serve the residents of the area. This facility will accept public drop off for clean concrete and all green yard waste ONLY but not limited to brush, leaves, green plant material, tree clippings, etc. All other material (cans, glass, bottles, plastics, metal, cardboard, rubber, construction debris, roofing material, etc.) WILL BE PROHIBITED!
