

COMPANY PROFILE

Otto-USA

otto-usa.com**ABOUT**

Otto Environmental Systems North America, a full-service solutions manufacturer, specializes in products and services for the Waste Industry. With over 100M carts in use globally, Otto is renowned for durable containers and container servicing solutions for residential and commercial waste collection. They offer a range of containers from 25 to 95 gallons for residential use, 1 to 8 yards for commercial purposes, litter receptacles for public spaces, and containers suitable for the organics sector. Otto provides state-of-the-art technology for container management in the field and yard, efficient A&D programs, and environmentally friendly recycling initiatives. The company ensures quality manufacturing, dependable cart distribution and maintenance, and offers full-service solutions to streamline waste collection programs.
