ABOUT

Recycling Squared Electronics (r2electronics.com) is a company that specializes in the recycling and disposal of electronic waste. We provide a range of services including the collection, sorting, and processing of electronic devices such as computers, laptops, smartphones, and televisions. Our goal is to ensure that electronic waste is properly managed and recycled to minimize its impact on the environment. We also offer data destruction services to ensure the security and privacy of our clients' information. With our expertise and commitment to sustainability, we strive to be a leader in the electronic waste recycling industry.
