

COMPANY PROFILE

Reclaim Mt

reclaimmt.com

ABOUT

The U.S. is the #1 trash-producing country in the world at 1,609 pounds per person per year. This means that 5% of the world's people generate 40% of the world's waste. Reclaim MT's first residential pickup occurred July 13, 2009 and our commercial services started June 29, 2009. A local Livingston family has made a goal to assist the State of Montana in its goal to divert 22% of waste from landfills by the year 2015. By making recycling convenient and educating individuals on the proper way to recycle our hopes are to change individual attitudes regarding purchasing, using and refuse habits.
