

COMPANY PROFILE

Recycle Solutions

esutah.com

A B O U T

We provide an environmentally responsible solution to the recycling of e-waste. We maintain a policy that hazardous e-waste should remain from landfills and should be contained in an environmentally safe procedure. We continually strive for the most economical and efficient ways of disposing of all e-waste. Recycle Solutions is committed to this idea. "A Brighter Idea In Recycling." We are dedicated to secure data sanitation. ALL data that enters our facility is eradicated with an 'Advanced Complex' method. Keeping information for you, your business, your clients, and your patients, safe from being exposed or used is a must. The fact that 70% to 90% of all energy that is consumed by an electronic is in the manufacturing process, means that repurposing these items to extend the life of them only makes sense. That's another portion of what we do, we try to get a second life out of every item that we can. All other 'end of life' e-waste is processed and the materials will be reused at some point for new product. Like next year's must-have tablet, or even that accessory for your new car. We have Brighter Ideas for the proper disposal of e-waste and a commitment to a clean environment. By the way, whenever you purchase one of our refurbished PCs or other components we require that at whatever point you are no longer able to use it that you return it to us for end of life processing. Recycle Solutions is a full service facility. We aim to provide fast and reliable services to all businesses. Secure Data Destruction Hard drives, data tapes, and other types of media are cleaned and all data is securely destroyed using Department of Defense standards. If your needs demand it, we can actually physically destroy your hard drive making sure that all of your sensitive data is completely un-recoverable. Resale & Refurbish Visit our location at 2066 W. 2300 S. for a complete selection of quality PC's, PC hardware, and other types of electronics. Pick-Up of Recyclable Electronics We pick-up your electronics items free of charge for businesses. Call 801-590-8847 or [click here](#) to schedule a pick-up.
