

COMPANY PROFILE

Recycle Trees

recycletrees.com

ABOUT

Recycletrees.com offers a hassle-free way to recycle your Christmas tree and give something back to the environment. They remove the tree from your home, drain the water stand, clean up the needles, and take the tree to be recycled into mulch. They donate to TreePeople, who plant trees in the local mountains. The mulch produced from the recycled trees is used for local plantings, and a portion of all proceeds goes towards environmental initiatives.
