ABOUT

RJR Recycling is a recycling center located in Hollister, CA. They accept a wide range of items for recycling, including CRV aluminum cans, glass and plastic bottles, steel, tin, cast iron, aluminum, brass, copper, copper wire, lead, radiators, stainless steel, cars, car bodies, farm and tractor equipment. They also offer drop-off services for cardboard, newspaper, and milk jugs, as well as roll-off services. RJR is certified by the State of California to buy back California redemption containers. In addition to recycling services, RJR also provides hauling and job site cleanups, house or garage cleanouts, realtor trash outs, appliance and furniture removal, and yard debris disposal. They emphasize the importance of recycling for green living and eco responsibility.
