ABOUT

Route 24 Got Junk is a full service junk removal company for residential and businesses alike. We will come to your location and remove all recyclable junk completely free, as long as the load meets our minimum pick up requirements. If you have any questions in regards to what qualifies to be a part of our free junk removal service, please feel free to call Jim! He has been offering fast and friendly service for nearly a year, to hundreds of satisfied customers, usually with same day pick up! Our hauling service is separate from our free service and we do charge for this type of junk and trash removal. Trash clean-outs - Household Trash, Wood, Glass or anything else that needs to be hauled to the landfill. Tennant clean-outs - Rental units for residential and commercial, garages and sheds. Hoarding clean-outs - Although we are not counselors, we will facilitate the process for junk and trash removal with a kind heart. Removal Fees are based on Time/Labor and Landfill Charges. A deposit for estimated Landfill Charges may be required. Anything that is recyclable will be removed for free.
