

COMPANY PROFILE

Secure Recyclers

securerecyclers.com

A B O U T

Secure Recyclers, in business since 2007, is your free one-stop computer and electronics recycling company (E-cycler). Using the most up-to-date technology available we take your unused, outdated, or unwanted electronics and recycle all components while maintaining strict adherence to local, state, and federal regulations while maintaining complete privacy for your company. All necessary paper work is provided suite your companies needs. Secure Recyclers operates a 15,000 sq. ft. facility in Lincoln, NE. We use all proper and required safety equipment needed for the safe demanufacture and refurbishment of the equipment we receive. Our primary imperative is to refurbish eligible equipment for resale, thus extending its useful life and keeping waste from the landfills. Second, equipment deemed unfit for refurbishment and resale is demanufactured into recyclable metals and plastics including gold, silver, copper, aluminum, platinum, titanium, and PVC. Some materials may be sent to third-party resellers and demanufacturers who specialize in certain types of electronic components. All of our contractors are thoroughly vetted to ensure the proper disposal of all materials. Secure Recycler's goal is to help your company secure your assets, limit your environmental and security liability, and to protect our environment. To this end we constantly strive to keep every element of every piece of equipment that passes through our hands out of the landfills and incinerators. We offer free pickup to all businesses, for your old computer and electronic equipment. We can provide on-site data destruction for all your hard drives , data tapes and ssd style media storage. Secure Recyclers will send your company certificates of destruction and all paper work to keep you compliant. CRT Monitors have a small charge depending on quantity and size, please call for pricing. We service all areas in Nebraska and surrounding states. We provide certificates of destruction for all of your data and any other documentation required by your company. We currently acquire any dead or used equipment that is deemed no longer usable or labled "electronic waste". We meet or exceed all EPA regulations and guidelines to

insure your companies' ease of mind in this constantly changing market of recycling.
