## ABOUT

Bulk storage Handling System Mixing System | Sodimate Sodimate is leader in bulk storage, handling and mixing system. We engineer reliable efficient control of discharge, feed, and transport of dry chemical. For over 30 years, Sodimate has supplied bulk handling systems for use with a vast array of industries. We provide equipment from a conventional flexible screw feeder to a complete automated bulk storage silo, discharge and feed system. Sodimate is a leading manufacturer of bulk handling systems.

Sodimate is a leader in the bulk handling industry. We have 30+ yrs experience in engineering & manufacturing bulk handling systems using screw conveyors. Request for quotation for Reliable Water or Air Treatment Processes 9000 Successful Installations. 40 years of experience. Welcome to SODIMATE Specialist for Bulk Systems in Water or Air Treatment Applications Over the past 40 years, Sodimate has been engineering and manufacturing for industries and municipalities more than 9,000 systems that store, discharge and convey bulk powders, and mix them with water or sludge. You can count on our innovative and custom designs to ensure high quality h For over 30 years, Sodimate has supplied bulk handling equipment and systems for a vast array of clients. We provide a wide range of equipment from conventional flexible screw feeders to completely automated bulk storage silos, discharge and feed systems. With over 5000 successful installations throughout our worldwide subsidiaries and representative networks, we have enhanced numerous applications and industries: Water & Wastewater Treatment • pH adjustment, water filtration, water softening • Wastewater treatment, sludge stabilization, sludge dewatering systems, polymer units, quicklime slaking systems Flue Gas Treatment, Power Generation and Steel Industries • Flue gas desulphurization, dry and semi dry sorbent injection • Heavy metal pollutant control (mercury, cadmium, lead, chromium, etc.) • Soda ash flue gas cleaning • Trona storage, feed and injection systems • Powdered activated carbon (PAC) injection systems for Mercury removal • Biomass Storage and feed systems Mining • Soil Remediation • Water

stream pH adjustment • Onsite lime slaking units Plastics and Molding • Plastic pellet storage and conveying • Dry chemical addition • Plastics recycling Food Processing & Agriculture • Wheat storage silos • Corn & potato starch discharge and conveying systems Cement • Cement storage, discharge & feed systems Pulp & Paper • CMC & Starch handling Industrial Machinery Manufacturing manutention de réactif en poudre convoyage de boue d'épuration dévouteur mécanique stand de vidange de big bag cuve de préparation de lait de chaux cuve d'extinction de chaux vive unité de chaulage de boue silos de stockage de poudre
