

COMPANY PROFILE

Synergy Environmental

synergy-env.comABOUT

Synergy Environmental was founded by Mike Logan in 2001, after accumulating over a decade of experience in the waste/debris removal business working for the second largest waste provider in North America. Mike soon saw the opportunity to capitalize on his knowledge of the industry and developed Synergy Environmental. Synergy's mission is to provide waste management services to industrial, commercial and residential clients utilizing the latest technology to lower cost via reduction, reuse or recycling of waste streams.
