ABOUT

TF Construction is a construction office that designs and delivers high-quality, specialized projects and equipment tailored to the needs and requirements of the user. Our solutions are used in facilities in Poland as well as in other countries around the world (USA, Canada, Russia, UK, Netherlands, etc.). We have been offering our services on the market since 2007 and during this period we have managed to gain a wide range of loyal customers, to which you can also join.
