## A B O U T

U.S. Shredder and Castings Group is one of the world's leading suppliers of equipment and parts to the Scrap Industry. The company supplies equipment, parts, castings, wear parts and service to essentially any aspect of the Scrap Metal Recycling Industry throughout the world. U.S. Shredder and Castings Group partners with some of the highest quality and efficient suppliers of equipment and technology. Our company mission is simple: high quality equipment and parts, state of the art technology, excellent service and extremely competitive pricing. U.S. Shredder and Castings Group is headed by Bill Tigner. Bill has over 25 years of industry experience. Prior to forming U.S. Shredder and Castings Group, he ran some of the industry's leading companies. U.S. Shredder and Castings Group's sales headquarters are Miramar Beach, Florida. U.S. Shredder and Castings Group is committed to providing the auto scrap and recycling industry the highest quality products and services available. Our high standards and unbeatable customer support are what pushes us to the industry's leading edge. U.S. Shredder builds the most efficient nonferrous systems in the world. We work with industry leading suppliers to provide state of the art technology for our nonferrous separation solutions. Our auto shredders are the heaviest auto scrap shredders on the market today. The very best engineering team in the industry designed our line of metal shredders not only with the most steel and the most features, but with fabrication costs in mind. That way, our shredders are priced at what the competition sells their lighter machines for. All models can be fitted with our Heavy Duty Spider or Disc Rotors. U.S. Shredder and Castings Group is a leading supplier of magnetic separation systems for auto shredders and metal recycling operations. U.S. Shredder and Castings Group provides electrical and control system engineering for metal and auto scrap shredding and sorting operations. We provide:
