A B O U T

Recognized as a leader in waste and recycling services, the Unity brand was established in Maryland in 1996 with the founding of Unity Disposal and Recycling, LLC. Unity provides trash collection, recycling and other waste management services to communities from Maryland to Georgia. The formation of the company was the result of two independent waste industry entrepreneurs joining forces to combine their skills, resources and experience to bring competitive waste solutions to Government, Commercial and Residential clients in construction, hospitality, retail, restaurant, and other industries. Several years ago the Unity brand was extended into the South with the establishment of Unity of the Carolinas, Inc. serving North and soon to serve South Carolina, and Unity Southern Environmental, Inc. currently serving Atlanta, Georgia, and soon to serve Alabama, Mississippi, Florida, Louisiana, Kentucky, Tennessee, and Arkansas. At Unity one of our mottos is "Keeping the Green in your Community", from residential and commercial trash collection, bulk trash and yard waste service, dual/single-stream recycling programs, roll-off services to the utilization of compressed natural gas (CNG) vehicles. Unity Southern Environmental and Unity of the Carolinas continues to partner with communities in the southern region developing and delivering environmentally sound waste and recycling solutions. Our Company has been community focused since its inception. Our primary goal is to develop and deliver environmentally focused waste and recycling solutions. We do that in partnership with the communities in which we serve. Unity is not just our name; it is one of our founding principles. The foundation of our culture is teamwork, employees working together to deliver results for our customers, in collaboration with the people in the communities we serve. At Unity, our employees live and our facilities are located in these communities. We make it a point to work with local vendors and businesses that help us ensure we deliver professional, safe, and courteous waste and recycling services. At Unity, we offer a single stream recycling program allowing our customers to comingle recyclable

materials in one container. Customers can mix paper products, cardboard, aluminum cans, plastic bottles and containers, etc. in the same bin and bring it curbside on collection day for pickup. Our goal is to make it easier for the public to recycle, which has contributed to increased recycling levels in the communities we serve. We know that recycling has a direct and positive impact on our environment and helps keep our communities green! Look for our staff will in your community participating in events and providing educational information on the benefits of recycling. Businesses have a great opportunity to recycle given the large amounts of recyclable materials they generate.

Unity works with businesses to develop a recycling program unique to their business. The recycling program will be based on types of materials recycled, volume produced, size of containers needed to store materials, program type; single stream or dual stream and days of collection. We encourage businesses to join us and help keep the green in our communities! Unity offers the premier service for your construction and demolition collection needs. We provide roll-off containers for large and small projects with our open-top roll-off containers ranging from 10 to 40 cubic yards. Whether you have a quick job, long-term construction project, or need a permanent container, for waste or recycling purposes, we can supply the right container to meet your needs. Our roll-off service is a primary form of our business. We deliver to you a service that is unmatched in the area at prices that are reasonable and affordable. We provide temporary or permanent roll-off services providing the right container and collection service to address your specific need. Our multi-size containers support projects generating large to extra-large amounts of waste & recycling. Unity Southern Environmental is located in the heart of the Atlanta Metro Area in Austell, Georgia just minutes away from Six Flags over Georgia. From this location Unity Southern services customers in Cobb, Fulton, Gwinnett, Rockdale, DeKalb, Clayton, Cherokee, Fayette and Douglas Counties. The Unity Southern Roll-off Division serves customers in the construction industry daily, providing dumpsters for construction projects of all sizes from small renovations to large demolition and multi-year construction projects. Leadership in Energy & Environmental Design (LEED) tracking is a core competency of Unity Southern when required by contractors. Unity Southern's Commercial Division is the current contract holder servicing Clayton County Schools and also provides commercial trash collection for business in retail, housing, government, hospitality and so many other industries. Unity Southern's Residential

Division has significant expertise in trash, recycling, bulk trash, and yard waste collection and will begin operations at the year end of 2013! If you are a private resident looking for residential waste collection or you represent a Home Owner's Association, Unity southern stands ready to serve your community! Unity of the Carolinas is located in Halifax, North Carolina, about 80 miles north of Raleigh. From this location Unity services customers in Halifax, North Hampton, Bertie, Edgecombe, Nash, Franklin, and Warren Counties. This is also the hub from which Unity will develop in North and South Carolina. The Unity of the Carolinas Residential division is currently the waste collection contractor providing trash and recycling collection for over fifteen thousand residences in Halifax County. This contract represents Halifax's County first residential recycling program. With this understanding, Unity is committed to education and community outreach to ensure the citizens we serve comprehend the importance of recycling as well as basic fundamentals of "how to" recycle. With that commitment the goal of the recycling program is to reduce the trash collection volume and the impact on the landfill resulting in positive effects on the environment. In the fall of 2013, Unity will begin providing Roll-off and Commercial waste and recycling services in this region. Trucks The Unity fleet is configured to cover any project known to the solid waste industry. We offer Rear-End, Front-End and Roll-Off trucks of all sizes to accommodate large and small scale jobs. No matter the special requirement Unity has the right truck for the job! With a commitment to the environment our Unity fleet also includes forty-five CNG (Compressed Natural Gas) Recycling & Refuse Trucks. Containers Unity will provide you with the container you need to service your needs properly. Our containers are delivered and maintained with the utmost care and consideration. We understand presentation is just as important as service, therefore we make sure all of our equipment is presentable and well up kept. Here at Unity we offer 96 gallon totes to 40 yard Roll-Off containers to service your project need. Rubbish Removal. Unity Southern Environmental has been listed in the Blue Book since 2014.
