

COMPANY PROFILE

Veolia

veolia.comABOUT

Veolia Environnement SA (Veolia) is a global leader in optimized resource management, providing environmental management services such as drinking water treatment, wastewater and sanitation services, waste management, and energy services. With a workforce of nearly 220,000 employees worldwide, Veolia aims to be the benchmark company for ecological transformation by designing and implementing practical solutions for water, waste, and energy management. In 2021, Veolia served 79 million people with drinking water, 61 million people with wastewater services, produced 48 million megawatt hours of energy, and treated 48 million metric tons of waste, recording a consolidated revenue of €28.508 billion.
