M. Lyles Co. specializes in Water and Wastewater Energy and Environmental construction projects throughout the State of California. Our mission is to meet the needs of our clients by providing the highest value construction services available. Our company beliefs focus on: safety, performance, quality, schedule, budget, and company service. Our core strength is our people. We have developed experienced industry leaders who perform and do what they say they will do. Our leaders practice partnering with our clients by providing open dialog based on truth, honesty, and integrity. Committed to the communities we serve, W. M. Lyles Co. is known for our sense of responsibility. We are a leader in the industry with a reputation for quality workmanship and expedient performance under tight scheduling constraints. Honesty and fairness have earned us the respect of our customers and the loyalty of our employees. From our inception in 1945 in the Central California oil fields of Avenal, W. M. Lyles Co. has developed into a diverse construction organization, performing work throughout California with operational capacity in several adjoining states. Building from our foundation in tradition pipeline construction, our work has covered a vast spectrum of construction activity including installation of distribution systems for irrigation districts and gas utility companies, communication and power systems, public and private sewer, water, and storm drain systems, infrastructure for multiple state/county prison sites, design/build projects, pump station and Con Span

concrete culvert systems, as well as our recent emphasis on environmental remediation. All of the tremendous work conducted by W. M. Lyles Co. could not have been accomplished without an adamant dedication to safety, which we believe is the cornerstone of a successful job. Safe practices have been adopted and are strictly enforced to ensure the safety of our workers, co-workers, and members of the public. Our safety program integrates a progressive approach to awareness, cooperation, education, information, procedures, prevention, and training of our overall philosophy of the importance of our safety policies. The dedication of our full-time safety department, which operates across the entire state of California, continues to keep us safe and moving forward.
