wasterecyclinginc.comABOUT

Waste Recycling Inc.'s corporate office is located in Montgomery, Alabama and has been in operation since 1943. There are 4 divisions that have been strategically located throughout the state of Alabama- Montgomery, Anniston, Tuscaloosa, and Opelika. All of our operating divisions have been designed specifically for processing recyclable material and are equipped with the most modern and efficient processing equipment.

We can provide solutions for all of your recycling needs. We focus on waste reduction for commercial and industrial suppliers. We specialize in the removal of paper, plastic, metals, and other recyclables from the waste stream to minimize waste hauling and disposal costs. Our marketing team has extensive experience with waste audits, minimization plans, and can develop a blue print to achieve a supplier's waste reduction goals. We can supply you with the knowledge, equipment and training necessary to handle your recyclable materials. We operate our own fleet of over 40 power units and 300 trailers throughout the Southeast to service the needs of our valuable suppliers and customers. We can provide processing equipment, such as balers, compactors, roll offs, trailers, and other equipment, as needed, to achieve the supplier's goals. Equipment can be supplied either on a rental basis, where we maintain the equipment, or as a lease-purchase agreement, where the supplier will eventually own the equipment.
