AllArtWorks Viewing Studio (Last updated April 2025)

333 Cesar E. Chavez Ave SW, Grand Rapids, MI 49503

Parking and Exterior Lighting.

Metered street parking is available, along with several surface lots surrounding the building. The area is lit by standard street lamps.

Main Entrance and Accessibility.

The main entrance features a single manual push/pull door, accessed by two sets of stairs.

There is also a ramp on the side of the building that leads to an accessible entrance. However, this entrance is locked and has a heavy manual swing door. It leads to the back of the building, requiring visitors to navigate through interior hallways to reach the viewing studio.

Interior Layout and Navigation.

Upon entry, there is a service desk where visitors can purchase tickets or obtain additional information. The studio space is on a single-level floor, though elevators are available for other businesses in the building.

Downtown Accessibility Navigator

The layout is open-concept, with art displayed along the walls. During the visit, walkways were clear and unobstructed, providing easy navigation.

Lighting and Atmosphere.

The space is well-lit, primarily by natural light from large windows. The overall atmosphere was quiet and calm.

Restrooms.

There are two single-user, gender-neutral restrooms. The accessible restroom was cramped due to miscellaneous supplies being stored inside, limiting turning radius. The sinks in both restrooms were manual and not touch-free.
