Parking.

Metered on-street parking is available along Jefferson Avenue. Area lighting is provided by street lamps for visibility during evening hours.

Entrance.

The main entrance is located on Jefferson Avenue. It

features a single manual swinging door that is flush with the sidewalk. While there is no designated curb cut directly in front of the entrance, an accessible route is available via the crosswalk and curb ramp located near the adjacent parking lot entrance for a neighboring building. A

structural pillar is located near the entrance but does not obstruct access.

Inside.

The restaurant has a single-level layout that is generally wide and easy to navigate seating. A central service counter is present, though it does not have a lowered section; there is, however, some knee space

beneath the front edge.

Sensory.

The space is well-lit by natural light from front-facing windows, complemented by white-toned overhead fixtures. During the visit, the environment was calm and comfortable.

Restrooms.

There are two single-user restrooms, each labeled for men or women. Both feature manual swinging doors, wall-mounted mirrors, manual sinks with knee clearance, and grab bars typically one behind and one on the side of the toilet to support accessibility needs.
