

Cookie policy

Our website uses cookies to distinguish you from other users of our website. This helps us to provide you with a good experience when you browse our website and also allows us to improve our site.

A cookie is a small file of letters and numbers that we store on your browser or the hard drive of your computer if you agree. Cookies contain information that is transferred to your computer’s hard drive.

We use the following cookies:

- **Functionality cookies.** These are used to recognise you when you return to our website. This enables us to personalise our content for you and remember your preferences (for example, your choice of language).

You can find more information about the individual cookies we use and the purposes for which we use them in the table below:

Cookie Name	Purpose
_csrf	Provides encryption protection of your answers that you have filled out our request forms.
language	Allow us to remember your choice of language and show it to you next time, when you visit our site.
cookieconsent	Asks for consent from you before setting any cookies.
PHPSESSID	It's just the default identifier that PHP uses for cookies which are generated.

We don’t use analytical, performance or targeting cookies, so such third parties like advertising networks and providers of external services like web traffic analysis services have not access to them too.

You can block cookies by activating the setting on your browser that allows you to refuse the setting of all or some cookies. However, if you use your browser settings to block all cookies (including essential cookies) you may not be able to access all or parts of our website.

Except for essential cookies, all cookies will expire after 30 days.
