

Verifone Commander Convenience

Shaping the future of POS for
Convenience Stores

The newest, most dynamic countertop point of sale (POS) for convenience stores has unsurpassed functionality and versatility. Commander Convenience's user interface is perfect for today's cashiers serving customers who demand frictionless experiences.

The brilliant, high-definition screen is easy on the eyes, and at an impressive 18.5 inches, there is abundant real estate for your sales needs. Screen palettes are easily customized for promotions, operations, and other details you need to track. Engineered for rugged reliability, Commander Convenience has flexible and intuitive functionality that grows with your business.

Smoothly integrates with other system components and peripherals.

The unique status light ring can change color to indicate the system status or provide alerts.

System architecture designed to handle payments eliminates the need to recertify existing POS applications.

Built-in hardware diagnostics consisting of a “Soft Reset” that allows for graceful system recovery should the need arise.
