ADD ON PACKAGES

MEMORIAL
HOSPITALS GROUP

For Couples

Fertility Package

Enhance your fertility evaluation with specialized add-on tests and examinations, offering a complete view of both female and male reproductive health.

Female

Examinations

- Fertility evaluation and ultrasound exam by an IVF specialist

Radiology

- Testing Tubal Patency with HSG (Hysterosalpingography)

Laboratory Tests

- AMH (Anti-Müllerian Hormone)
- Oestrogen
- Progesterone
- FSH and LH

Male

Examinations

- Examination by an Urologists

Laboratory Tests

- Semen Analysis
- Testosterone
- FSH and LH

\$1,200

(total for couples)

For women, Oestrogen, FSH, and LH tests must be performed on the 3rd day of the menstrual cycle, while the Progesterone test must be performed on the 21st day.

For Couples

Carrier Screening Panel

Screens for inherit recessive diseases that may be passed to children. (Cystic Fibrosis, SMA, Fragile X Syndrome, Thalassemia etc).

- Carrier Panel
- Genetic examination

\$3,000

(total for couples)

For Couples

Chromosome Analysis

For couples, chromosome analysis is used to investigate infertility, recurrent miscarriages, or IVF failures by detecting genetic abnormalities (Down Syndrome, Turner Syndrome, Klinefelter Syndrome etc).

- Chromosome Analysis from Peripheral Blood
- Genetic Examination

\$1,100

(total for couples)

Full body MRI

Takes detailed pictures of your whole body to check for hidden health problems early.

\$1,100

Cranial MRI + Neurology Consultation

Shows detailed images of the brain, and a neurology consultation helps interpret the results and plan the right care.

\$600

Bone Densitometry

Measures bone strength. It helps identify early bone loss and guides steps to prevent fractures.

\$300

Dermatology Add On

Expert skin check with digital dermatoscopy for early detection and peace of mind.

- Dermatology examination
- Digital Dermatoscope

\$500

HOSPITALS GROUP

Genetic Tests

Hereditary Cancer Screening and Genetic Evaluation Panel

Our next-generation sequencing panel evaluates 151 high-penetrance and moderate-risk genes. Results are delivered within three weeks, with genetic counseling provided by our specialists to interpret findings and outline an individualized plan.

- Hereditary cancer panel
- Genetic examination

\$500

Genetic Tests

Disease Risk Assessment Panel

Evaluates your genetic profile to reveal predisposition to conditions such as cardiovascular disease, diabetes, and Alzheimer's, helping to guide personalized prevention and follow-up plans.

- Polygenic Risk Analysis
- Genetic Examination

\$450

Genetic Tests

Genetic Heritage Panel

Explores your genetic heritage, providing insights into your ancestral origins and background.

- Genetic Ancestry Analysis
- Genetic Examination

\$450

Genetic Tests

Pharmacogenomic Panel

Identifies how your genes affect drug response, enabling safer and more effective treatments tailored to you.

- Pharmacogenomic Test (Drug Sensitivity Test)
- Genetic Examination

\$450

Inhalant Allergen Panel

Identifies sensitivities to airborne triggers. Helping you minimize reactions and enjoy a more comfortable daily life.

- Inhalant Allergy Panel
- Inhalant Function Test
- Pulmonology Examination

\$700

Hormone Panel

- FSH
- LH
- Estradiol (Estrogen)
- Total Testosterone
- Free Testosterone
- Cortisol, Free, Urine
- ACTH
- DHEA-S
- Prolactin

\$600

For women, FSH, LH, and Estradiol (oestrogen) tests must be performed on the 3rd day of the menstrual cycle. Cortisol (serum) test must be performed before 9:00 a.m.

Food Allergen and Intolerance Panel

Unlock the secret to better health with our Food Allergen and Intolerance Add-On. By revealing hidden sensitivities, this advanced test empowers you to make smarter dietary choices, boost energy, and enjoy life with confidence.

- Dietitian Examination
- Food Allergen Test
- Food Allergen and Intolerance Panel

\$450

PREMIUM PATIENT CARE SERVICES FOR INTERNATIONAL TRAVELERS

- **Free** second medical opinion from Memorial specialists
- **Personalized treatment plan** with transparent cost estimate
- **Virtual doctor consultations** with easy scheduling
- **Free** hotel booking assistance for patients and families
- **Free** airport–hotel–hospital transfers arranged for your convenience
- **Free** interpreter support throughout check-up and treatment
- **Free** translation of medical documents into English
- **Free** dedicated international patient coordinators to assist during admission, discharge, and recovery
- **Special Pricing** for extra tests and screenings
- **Exclusive discounts** on **Turkish Airlines** flights
- **Additional concierge services** available upon request – inquire today!

Isaac White

Best hospital experience I've had! Memorial is amazing! They have a well coordinated and streamlined process for international patients, their translators are very kind and helpful, the doctors are all very knowledgeable and professional about what they do, and even the shuttle drivers are super friendly, although not all of them speak English. I would highly recommend Memorial to anyone looking for a good hospital.

Jul 19, 2025

Edgardo Alomar

Beyond impressed by the world class service Being a veteran from America, I receive care from the VA that many don't get access to. That care pales in comparison to the care I received here. The patient care is leagues above anything you would receive in the states. Our translator Naz made the experience a breeze, getting us everywhere we needed to be an explaining anything we didn't understand. He took care of our transportation, lunch arrangements, and helped us pick up our prescriptions. Truly world class services and care.

Jan 28, 2025

Eve

One Day, Top-Tier Care in Istanbul I recently had the opportunity to visit Memorial Hospital in Istanbul, Türkiye, for a comprehensive health assessment through the Women's VIP package. From start to finish, the experience was incredibly well-managed, thanks in large part to the outstanding support and coordination provided by Meral Halit. Memorial Hospital is an excellent option for anyone looking to gain insights into their health quickly and cost-effectively. The Women's VIP package was comprehensive, and the quality of care was top-notch.
