

Duplicate Discounts**1.3**

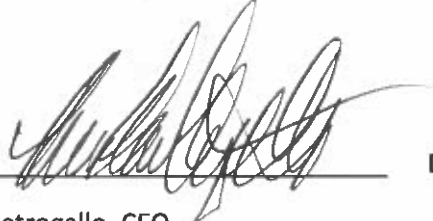

POLICY – The Poverello Center, Inc. uses reasonable efforts to prevent duplicate discounts from occurring when purchasing 340B drugs.

The Poverello Center elects to Carve Out Medicaid program payments from participating in our 340B program. This means that no program participants will receive drugs purchased by Poverello with a 340B drug discount.

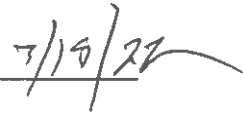

1. Each program participant is reviewed upon entry into Poverello's 340b program and at a minimum annually to ensure they are not Medicaid eligible.
2. If a client has become eligible for Medicaid, The Poverello Center will no longer purchase the drugs used in the patient's care through its contracted pharmacies under the 340b program.
3. If a client is billed incorrectly through our 340B program, the program, the contracted pharmacy and the Third-Party Administrator work together to correct the error.
4. Monthly, the Poverello Center, Inc. looks at the participants in the program to ensure they meet the eligibility criteria for our program.
5. Medicaid Managed Care Entities are not subject to this prohibition.
