FIND YOUR FLARE

Flare Fireplaces merges contemporary, ergonomic design with practicality and efficiency. Whether you're looking for a stunning centerpiece or a heating unit for your home or business, Flare is your one stop source for high-end fireplaces that can do it all.

Our frameless, linear, direct-vent fireplaces are made to the highest quality and safety standards. Flare Fireplaces offers simple installation and maximum flexibility with over 80 different models and extensive options. Choose from 7 different types of fireplace, each ranging from 30 to 100 inches long with the option for either 16, 24, or 30-inch glass height. Enjoy your Flare for years to come, as all of our models come with a 10-year warranty.

KEY FEATURES

STYLE
CHARACTERISTICS

Seven different presentations, each from 30-100 inches long.[1] Standard 16-inch glass height, 24-inch High Glass, or 30-inch Extra High Glass option available for all models. Frameless design. Residential and commercial use.

COOL TOUCH
WALL DESIGN

All of our models are designed so surrounding walls stay relatively cool, allowing you to hang a TV or art piece closer to the fireplace with less insulation to save you time, money, and effort.

EASY INSTALL
AND SERVICE

Telescopic Legs let you easily plan and adjust the fireplace height. Easy access to the vent restrictor and air shutter allows quick calibration of flame height & color. Smoke free paint with no burn period.

[1]Room Definer from 45 to 100 inches. [2] All 30 inch fireplace models come with 24-inch high glass.

BURNERS
AND GAS

3D Stainless Steel burners give more depth to the flame. The multiple burner system allows the flame to extend closer to the edges.

Electronic Ignition.

Power Adapter and Battery Backup.

Natural Gas or Propane.

CERTIFICATES
AND COMPLIANCE

Complying with North American standards[3] as well as state requirements in CA, MA, and NY.

High Efficiency ratings.

Certified for use with DuraVent 3x5, 4x6, or 5x8 direct vents.[4]

QUALITY
AND COMFORT

Compatible with home automation systems.

Advanced programable remote control.

Easy to use touch wall switch.

Classic Decorative Media included.

10 year warranty.

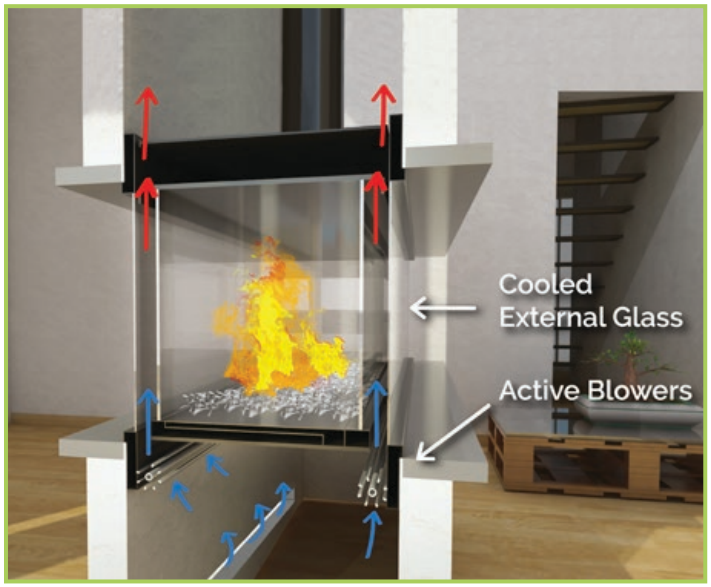

[3] ANSI Z21.88 – CSA 2.33 Vented Gas Fireplace Heaters.

OPTIONAL FEATURES

COOLED **GLASS**

Cooled external glass serves as a sleek safety barrier while maintaining the same heat output and efficiency. Frameless corners allow a clear view to the flames. Power venting not required. Suitable for residential and commercial use alike.

LED **LIGHTING**

Available in a radiant multi-colored option. Remote included.

REFLECTIVE **BACK** AND **SIDES**

Let the flames stand out against a black-mirrored ceramic glass background, adding amazing depth to any unit.

WALL **TIMER**

Simple wall-mounted timer. With the flexibility for mounting up to 100' away.

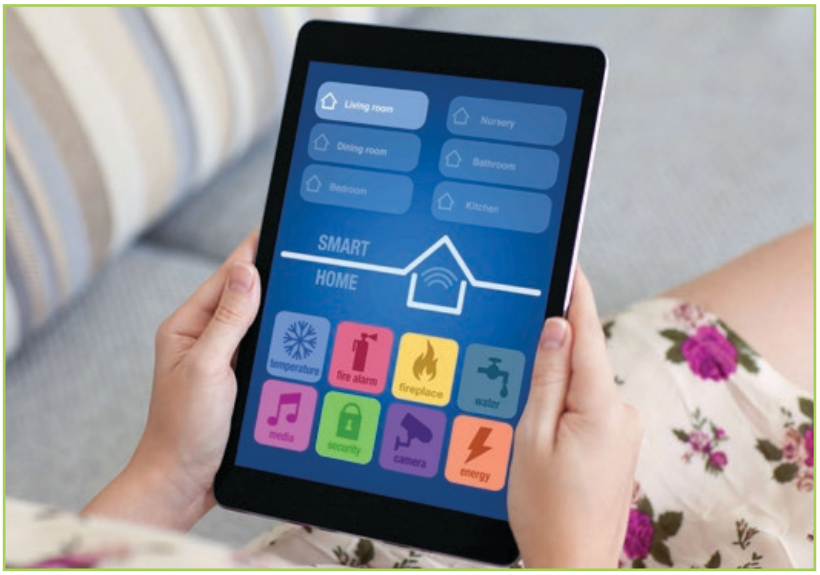

CUSTOM **UNITS**

Custom lengths and heights for special projects. Contact for more details and pricing.

HOME AUTOMATION

You can easily connect your Flare Fireplace to a new or existing home automation hub using our "Home Automation Cable", included with every Flare fireplace. This modern feature allows you to turn your fireplace on and off, and adds a modern twist to the heart of your smart-home.

POWER VENT

IN-LINE
SYSTEM

The in-line Power Vent allows vent runs of up to 100 feet. Designed for downward or extremely long horizontal runs. The system uses DuraVent 3x5 vents.

END-OF-LINE
VERTICAL

The End of Line Vertical Power Vent allows vent runs of up to 100 feet. Designed for downward or extremely long horizontal runs. The system uses DuraVent 3x5 vents.

FLUSH END-OF-LINE
HORIZONTAL

The End of Line Horizontal Power Vent sits flush against your external wall. It allows vent runs of up to 100 feet. Designed for downward or extremely long horizontal runs. The system uses DuraVent 3x5 vents.

COMMERCIAL LINE

Flare Fireplaces are perfect commercial use whether indoors or out. The taller glass option increases the viewing angle and the Double Glass feature comes standard for extra safety. Also included is a commercial grade gas valve so you can be confident Flare will integrate flawlessly into your restaurant, hotel, or local business.

SUMMER KIT

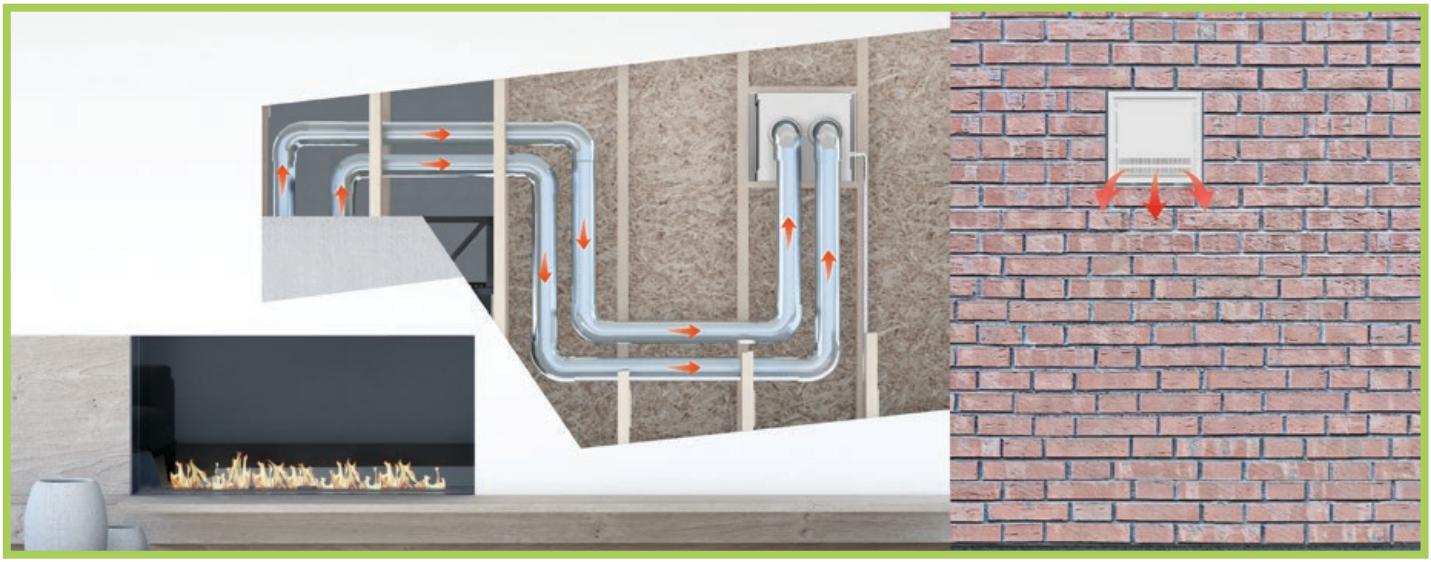

IN-LINE
SUMMER KIT

The perfect solution for moving heat from your fireplace chase to any outdoor termination point. Using flex pipe you can effectively run the heat your fireplace creates up to 80 feet, terminating on an exterior sidewall, allowing for operation of the fireplace without the heat it produces during the summer months.

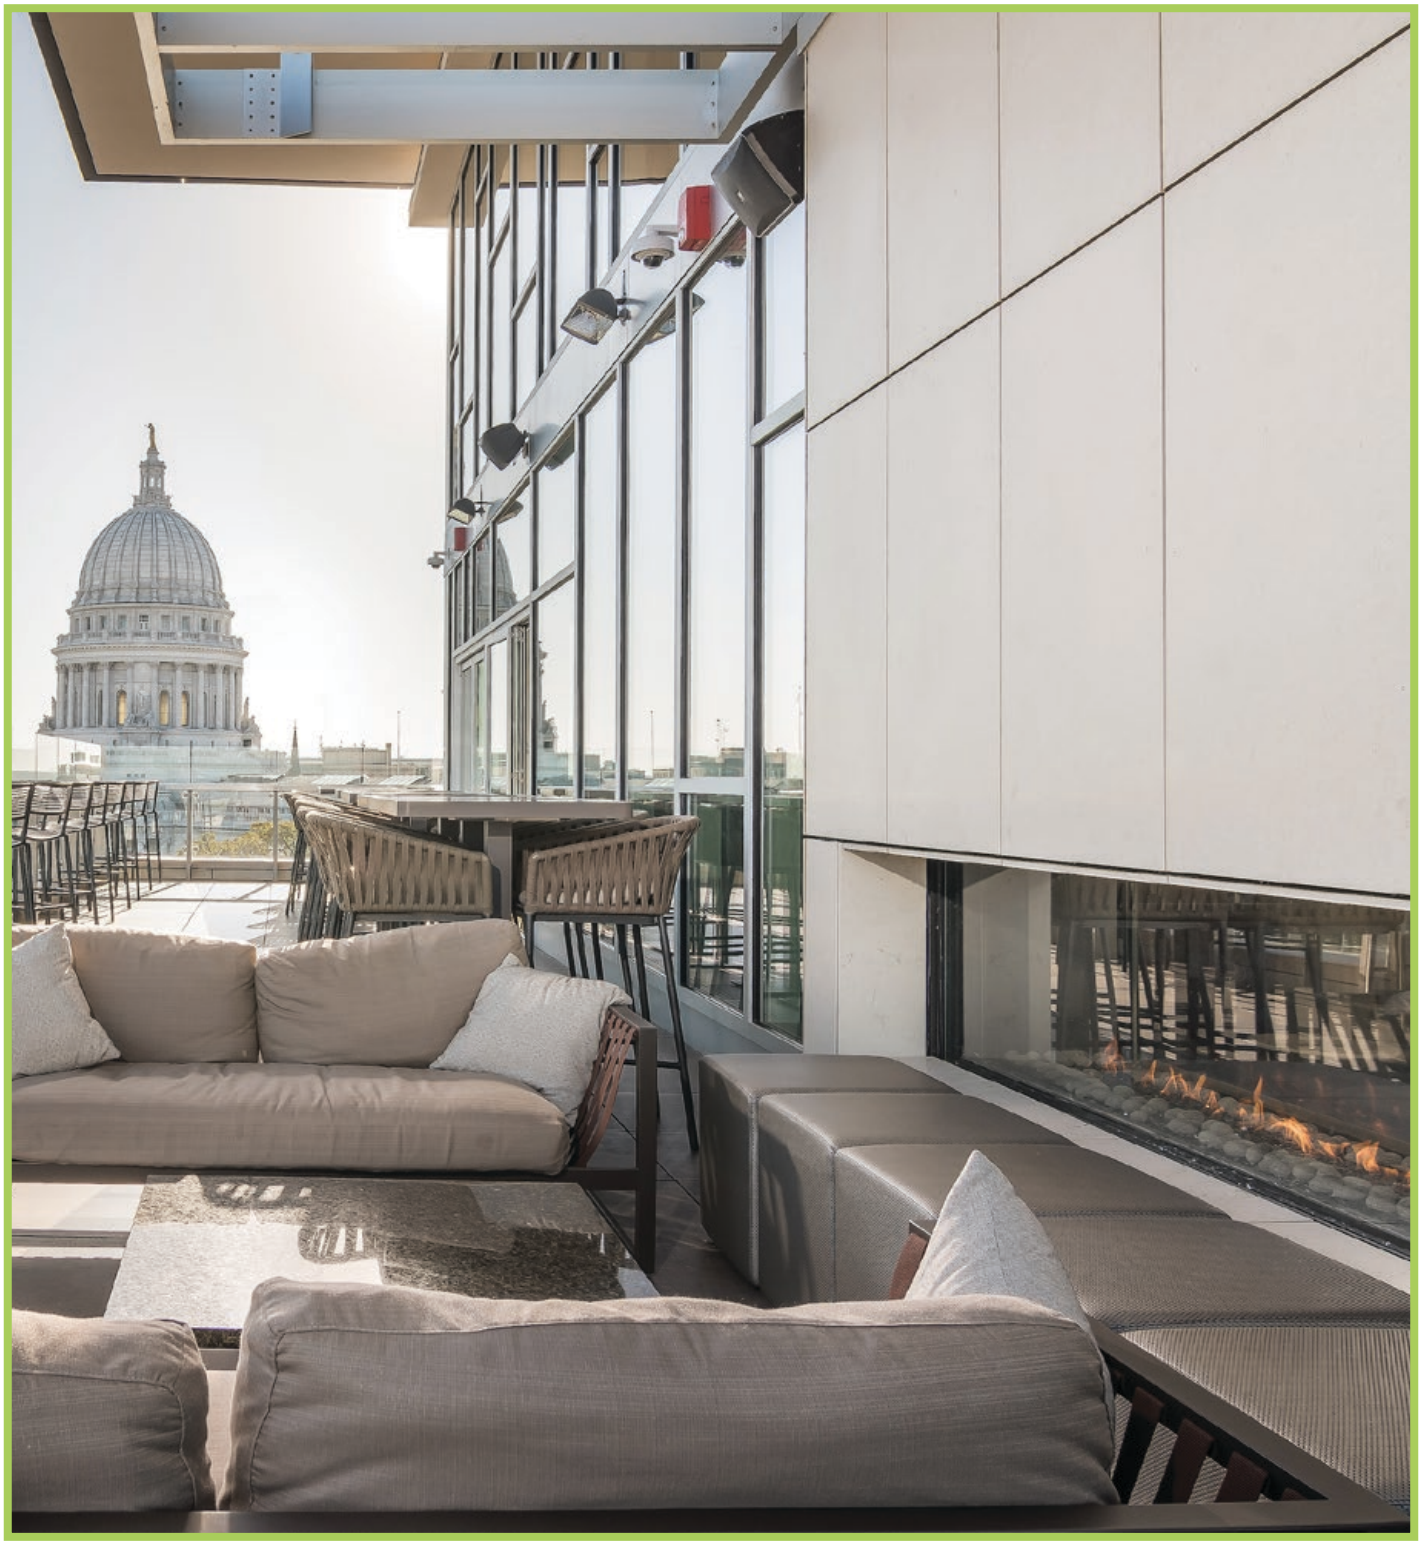

FLUSH END-OF-LINE
SUMMER KIT

This secondary option in our Summer Kit lineup opens up even more possibilities for installation across a wider array of projects. By offering an end of line horizontal termination you no longer have to worry about where to place the Summer Kit fan for service. You also reduce the noise level by allowing the installation of the fan to be further away from the fireplace.

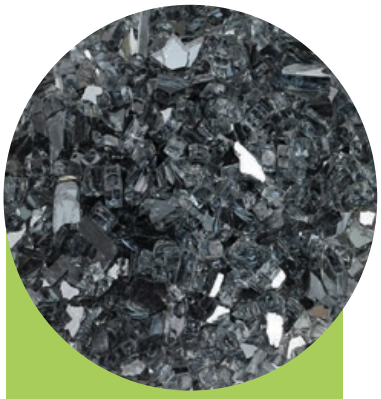

OUTDOOR KIT

*The Flare Outdoor Kit provides the freedom to enjoy a Flare Fireplace in your favorite setting. Use a Front Facing unit as the perfect centerpiece for your relaxing outside patio, or install the See Through Fireplace on an external wall for a unique, multi-purpose window. Our specially designed weatherproof kit comes with the same 10 year warranty as the rest of our line.

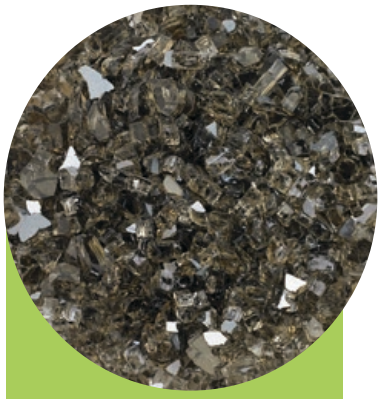

*Available only for See Through and Passage models.
