

WEBINAR AUDIT

Proposal

What's included in your webinar audit?

You can easily improve the results of your webinar when you know what to change.

Your Webinar Audit reviews:

1. Your Set of Registration and Related Page Links
2. Content Responsiveness to Audience
3. Webinar Authority Value
4. Flow and Rhythm
5. Closing Structure

A professional webinar audit is much more comprehensive than the five items above and will also include areas you may be less knowledgeable about.

“

I had the unique opportunity to work with Sherrie to take my webinar to the next level. Her guidance and support were laser-focused and precise to what I needed. She helped me create a truly **world-class webinar** with pieces I had. On a personal level, she is authentic, sincere and truly cares about your mission. Overall she **delivered beyond what was promised** and I am already referring other entrepreneurs to her. I recommend her when you want to **scale up your business using webinars**.

Working with Sherrie Rose is a total game changer. During 2 major launches her extremely concise and **concrete feedback** was amazing. Sherrie had massive **tiny tweaks with major impact**. She is **fast paced** organized and coaching was done in extremely short time accomplishing so much in extremely short time frames! ! The best part of working with Sherrie are her **brilliant mindset hacks**; her deep understanding of how human psychology works on webinars. Sherrie is lovely - personable, funny, and extremely passionate about her clients' success. We feel **fortunate to work with Sherrie** - one of our best decisions, and definitely contributed in a huge way to the **success of our webinars**. **I would advise you to lock in her time as soon as you can!**

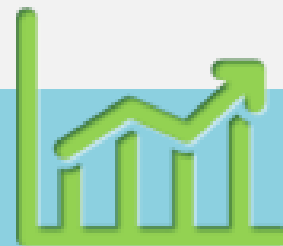

Melissa Pharr

“

Sherrie shared with me helpful changes and guidance **to further optimize my evergreen webinar** funnel.

The campaign was already profiting quite well and funneling those who purchase into our higher level programs. I can really see the **WEBINAR AUDIT making a difference for even higher conversions**.

Thanks Sherrie!

A webinar audit is an examination of your performance prior to redesign. Auditing your webinar can determine whether or not it's optimized to achieve your goals, and if not, how you can improve it to increase conversions and ultimately more sales.
