

Who Told You That Wasn't A Sin? – Pastor Steve Huffman

April 24 & 25, 2021

1. Pastor Steve shared that the people we put our trust in can significantly impact our thinking and decision-making. Where do you turn to for advice, and why do you trust that it will be good advice? Have you ever gotten bad advice? What happened?
2. Read I Corinthians 15:33. When honestly evaluating your “inner circle,” have you made good choices on who you allow to influence you? Why is it important to be selective in who’s advice you take?
3. Pastor Steve’s first point is that our inner circle can impact our character. Why should you be on guard to prevent yourself from being influenced by those not adhering to scriptural teachings? How do you remain teachable and willing to hear things that are hard to hear?
4. A great answer to a confusing world is godly character. Consider how you influence others. What are you doing each day to develop a more Christ-like character? How does godly character help bring clarity to sinful habits that the world deems acceptable?
5. Read Romans 16:17. Pastor Steve’s second point is that our inner circle can be selectively filtered- we have complete control of the voices we listen to. Do your current habits and relationships help or hinder your relationship with Jesus? What does it look like for you to filter disruptive voices out?
6. In a very “shaken” world, Pastor Steve reminded us that the “unshakeable core of your inner circle should be Jesus.” How does being firmly cemented in Jesus help you find stability in difficult times? How can it help those around you?
7. Read 1 Corinthians 15:58. Prayerfully consider what voice(s) have been distracting you from your spiritual walk. Assess how others are influencing your character. What habit, relationship, or sin is God calling you to filter out? How will you do this?
